

Innovative Solutions for Your Bottom Line Growth

Closed File Review

A Closed File Review is a post-closure audit of insurance claims designed to uncover missed recovery opportunities, compliance gaps, and process improvements—without disrupting your current workflow or adjusters.

What We Deliver

- ✓ Low-risk, non-intrusive audit with minimal data required
- ✓ Secure remote access (read-only access optional)
- ✓ Actionable insights to improve future outcomes
- ✓ Measure claim handling quality against best practices
- ✓ Contingency-based fees (pay only for successful recoveries)
