SUBROGATION SERVICES

OUR VALUES DRIVE US.
TECHNOLOGY ENABLES US.
CLIENTS TRUST US.

Welcome Message

On behalf of everyone at Latitude Subrogation Services, I'd like to thank you for taking the time to learn more about who we are and what we do. Being a part of the subrogation community offers a unique opportunity to connect, share ideas, and discover new ways to strengthen the insurance industry.

We believe subrogation is more than a recovery process. It's a partnership. Every claim tells a story, and behind each one is a chance to recover value, improve efficiency, and create better outcomes for insurers and their policyholders. That's why our team is built on experience, integrity, and a relentless drive to deliver results that make a measurable difference.

Over the years, we've worked hard to earn our reputation as a trusted partner in subrogation, and that comes down to three things: our people, our processes, and our technology. Our specialists bring decades of expertise across multiple lines of business, while our data-driven systems and technology ensure that every claim is handled with precision and transparency.

As you explore this brochure, you'll find an overview of our services, our approach, and the ways we can support your organization. Whether you're interested in a full-service partnership, a specific program, or simply a conversation about industry best practices, we're here to help.

Thank you again for your time and interest. I look forward to continuing the conversation about how Latitude can deliver value for your team.

We align the best processes, people, and technology to assure maximum recoveries quickly and efficiently.
